**** NEW REPEATER ****

There is a new repeater VE3MHZ is located at 146.835 with a -600 duplex.

The repeater is owned and opperated by Jerry Wilkins VE3AFP.

The tower is located at the junction of HWY 62 and 401 and is about 40 feet high.

The repeater is equipped with an auto patch and local calls can be accessed by punching up the code 753 then the local 7 digit number with no pause between the code and the number.

To disconect the auto patch press the pound sign or the octothorpe key (#).

Pressing 911 will connect you with the 1-800 number for the O.P.P. central dispatch in Toronto.

Pressing 811 will connect you with the Belleville Police Department.

Pressing 124 will connect you with the Minestry of Transport for road information.

Pressing 123 will connect you via 1-800 number in Toronto for Air weather traffic information.

***** NOTE *****

Name tags will be available starting Saturday Nov 16/91 and at the Club Meeting on Wed. Nov. 20 .

***** Christmas Meeting *****

Remember the Christmas Meeting will be a dinner meeting, it will be held on Friday December 6/91 at the Mirage Restaurant 257 North Front Street. The price will be about $20.00 per person and I understand that there will be at least five choices on the menu. They are, Prime Rib, Shrimp & Scalops plate, Filet of Sole, Veal Parmesan, Chicken Cordon Bleu. There will be a social hour 6:00 PM. to 7:00 PM. and dinner 7:00 Pm. to 9:00 PM.

*****Please Note that those members that are planning to attend the dinner please contact a member of the executive as the restaurant wants to know how many to expect.*****

446.800 to Kingston VE3KER
441.050 to Coburg VE3RTR

Last year the club supported with equipment and cash the installation of a Packet UHF link between Coburg and Kingston. This will eventually be part of a highspeed UHF link between Toronto and Montreal and Ottawa.

As with all such schemes using surplus commercial equipment, there are failures. At the monent the link to Kingston is down due to a failure in the transceiver (3rd time) a Mocon 35. And the 2 mtr drop is acting up. It works great, except sometimes.

Unfortunately most members do not realize what fun a few of us are having on Packet. If you have a computer or can acquire a "dumb terminal" you should give Packet a try. It is by far the fastest growing aspect of this wonderful hobby.

JOINT PRESS RELEASE from C.A.R.F. and C.R.R.L.

Representatives of CRRl and CARF including members of the CARF-CRRL Merger Committee and core members of the CRRL and CARF executives met in Kingston, Ontario, on Sunday October 27, to continue work on the creation of a new, single Canadian Amateur Radio Organization.

Discussions centered on the legal requirements for dissolution of the two existing organizations, and the upcoming vote by CARF and CRRL members on this question, the constitution and the by-laws for the new organization, the amalgamation of office operations, and the creation of a detailed time line for next steps. The latter assumes a favourable outcome of the vote by the members.

It is now expected that the new organization to be called Radio Amateurs of/du Canada (ARC) will be in place by mid to late 1992.
